

Lt Gen Arnold Bunch Shares His Thoughts at DMC 2017

UTC would like to extend our appreciation to Lt Gen Arnold Bunch for speaking at DMC 2017! He thanked the mostly industry audience for their support of the DoD and the AF. Gen Bunch focused on the need to a strong industrial base to maintain the existing fleet and develop the next generation of weapons systems for the defense department. "We don't want a fair fight, if we must fight. We must have the best for our sons and daughters that we send into harm's way." The participants appreciated Gen Bunch taking the time to share his thoughts and take questions from the audience. Gen Bunch also took time to

visit the Exhibit Hall, stopping by a few of the booths which directly supported Air Force projects.

DMC 2017 had over 800 participants attending the General and Technical sessions. DMC is hosted by UTC and is the nation's largest annual forum for the defense manufacturing and industrial base community of practice – business and technology leaders, policy makers, managers, scientists and engineers, from all levels of industry, government and academia. This year was focused on rallying American Defense Industry, Military Services and academia to respond to the issues, vision and opportunities that keep American defense strong.

DMC 2018 will be held in Nashville, TN at the Music City Center on December 3-6, 2018.
